Lancer's Legend

1958

Dedication

Mr. Richard S. Reynolds Sr. had insight into the future and blazed a trail into the aluminum industry during a time of great need in the World War. Through many set-backs, he had the courage of his convictions and became a dynamic leader.

May the ingredients that made up his personality - vitality, ambition, devotion, and honor - be instilled in us as our lives are molded during the years we spend here.

We dedicate this book to the memory of Mr. Reynolds, Sr.

We, the seniors of 1958, have the honor and privilege of being the first class to graduate from Reynolds High School. We have reached the top rung of the ladder. With the optimism of the young, we firmly believe that the entire world is ours for the asking. Looking back we see our work, play, activities, social life, and scholastic achievements. We think of the many friends we have made here at Reynolds. Deep in our hearts we know that where ever we go, we will have engraved in our minds the principles taught us while our life was being molded here at Reynolds High School.
